

Study design and multi-cohort validation overview

A fixed subtype definition was applied across cohorts, with assignment confidence summarized for cross-platform transfer.

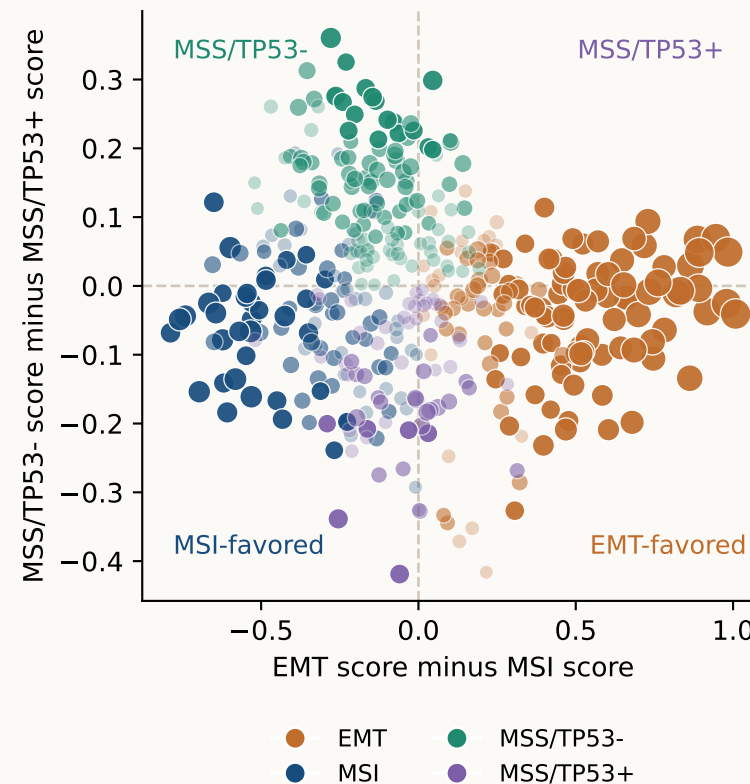

A Prespecified derivation and validation flow

B Cohorts and clinical endpoints

Cohort	Role	N
GSE62254	Derivation	300
GSE15459	External validation	192
GSE84437	External validation	433 used
TCGA-STAD	Context cohort	443
GSE26899	Exploratory treatment	93
GSE26901	Exploratory treatment	109

C Subtype score separation

D Subtype assignment confidence
